REF: CARVER-KONICK EMAIL DEC. 1 2009

Strasbourg, 30 November 2009

Dear President,

The Parliamentary Assembly of the Council of Europe has been deeply committed for many years to discussions on mitigating climate change. Our unique membership of 47 European states, including the Russian Federation, meant that during the negotiation on the Kyoto Protocol, we were able to exert valuable influence on the settlement that finally led to the Protocol's entry into force.

This December in Copenhagen the world is facing a new challenge. We all know what is at stake for the future of our planet and it is therefore of major importance for the First World countries to lead the way.

For this reason, at its meeting on 23 November 2009, the Committee on the Environment, asked me to write to you to respectfully urge you, above all, with your unique position, to take the lead and help to maximize the likelihood of an agreement by personally attending the Copenhagen Summit and giving your full support to the difficult but critical decisions that hopefully will be made in Denmark.

Yours sincerely,

/ s /

Luis Maris de Puig

H.E. Mr. Barack Obama
President of the United States of America
